WORK EXPERIENCE

Peloton Consulting Group

Boston, MA

Analyst – Platform as a Service

Mar 2020 – Present

- Implemented the first RPA solution in Peloton's history, leveraging UiPath to create a 'bot' that automated a complex and user-intensive data extraction process for a client
- Partnered with Human Resource to improve PaaS Analyst on-boarding and training
- Designed and developed data warehouse environments to facilitate enterprise grade reporting and analytics
- Created a Web Application built on Oracle Autonomous Database to provide client end-users a user-friendly UI to load & analyze financial data
- Collaborated with client resources to provide iterated improvements on technical work products

Oracle Corporation

Burlington, MA

Cloud Technology Consultant – Enterprise Key Accounts

Jun 2019 – Feb 2020

- Developed technical requirement documentation based on client ideation sessions and aligned necessary resources to facilitate POC's and sales pursuits
- Trained and mentored 10 new employees in the June, July, and August *Class Of* cohorts

Business Analytics Consultant – Mid-Market

Feb 2019 – May 2019

- Prospected into Mid-Market accounts, building qualified sales pipeline for use cases surrounding analytics, data visualization & reporting

Delivery Routing Logistics

Livonia, MI

Grand Opening Coordinator

Jul 2014 – Dec 2018

- Lead installation teams on the Hillers' to Kroger transition project, coming under budget by ~15%
- Managed the installation of ~25 Grand Opening projects, reducing required work-hours by an average of 10% YoY
